Section 1. Course Title and Description

Identify the lecture and laboratory numbers (xxx and xxxL) and associated credit hours if the course contains a lecture and laboratory component. Provide the complete description as you wish it to appear in the system course database, including prerequisites, co-requisites, and registration restrictions.

Prefix & No.	Course Title	Credits
PE 732	Introduction to Sport Analytics	3

NOTE: The Enrollment Services Center assigns the short, abbreviated course title that appears on transcripts. The short title is limited to 30 characters (including spaces); meaningful but concise titles are encouraged due to space limitations in the student information system.

Course Description
This course is designed to provide students with the skills and knowledge required for data literacy. Students will develop a foundation in statistics and gain practical experience that allows them to read, conduct, report, and interpret data in the context of sports sciences. By honing these competencies, students can provide valuable insights into athletic performance, business operations, strategic planning, and effective decision-making in the sports industry.

NOTE: Course descriptions are short, concise summaries that typically do not exceed 75 words. DO: Address the content of the course and write descriptions using active verbs (e.g., explore, learn, develop, etc.). DO NOT: Repeat the title of the course, layout the syllabus, use pronouns such as "we" and "you," or rely on specialized jargon, vague phrases, or clichés.

Section 2. Review of Course

2.1. Will this be a unique or common course (place an "X" in the appropriate box)?

Unique Course

If the request is for a unique course, institutions must review the common course catalog in the system course database to determine if a comparable common course already exists. List the two closest course matches in the common course catalog and provide a brief narrative explaining why the proposed course differs from those listed. If a search of the common course catalog determines an existing common course exists, complete the Authority to Offer an Existing Course Form. Courses requested without an attempt to find comparable courses will not be reviewed.

Prefix & No.	Course Title	Credits
KSM 781	Sport Analytics	3
KSM 385	Introduction to Sport Analytics	3

Provide explanation of the differences between the proposed course and existing system catalog courses below:

According to the course description for KSM 781 at USD, "This course will investigate the emerging questions in the sports industry (player evaluation, ticket sales projections, marketing effectiveness, crowd management strategy, traffic flows, etc.) through the prism of quantitative analysis. The class will consist primarily of lectures and case studies to best prepare sports industry professionals." This course seems to focus heavily on the sports business/management side. The proposed course will incorporate a blend of sport and exercise variables for analysis aimed at preparing coaches, sports scientists, and sports administration.
