Section 1. Course Title and Description

If the course contains a lecture and laboratory component, identify both the lecture and laboratory numbers (xxx and xxxL) and credit hours associated with each. Provide the complete description as you wish it to appear in the system course database, including pre-requisites, co-requisites, and registration restrictions.

Prefix & No.	Course Title	Credits
NURS 379	Health and Illness II	4
NURS 379L	Health and Illness II Lab	2

NOTE: The Enrollment Services Center assigns the short, abbreviated course title that appears on transcripts. The short title is limited to 30 characters (including spaces); meaningful but concise titles are encouraged due to space limitations in the student information system.

NURS 379 Course Description

Reinforces the nursing role related to interventions that promote health, prevent disease, and restore health. Focuses on the delivery of care to women and childbearing families, the pediatric population, and selected adult clients with acute and chronic health conditions. Evidence-based practice, technology, professional standards, and inter-professional collaboration are used to develop clinical reasoning skills that enhance patient-centered, safe, and effective care with individuals and populations across the lifespan. Co-requisites: NURS 333, NURS 369, NURS 378, NURS 379L. Pre-requisite: NURS 238, NURS 239/L, NURS 269/L, NURS 327, NURS 328, NURS 329/L, and NURS 355.

NURS 379L Course Description

Evidence-based practice, technology, professional standards, and inter-professional collaboration develop clinical reasoning skills that enhance patient-centered, safe, and effective care with individuals and populations across the lifespan. Co-requisite: NURS 379

NOTE: Course descriptions are short, concise summaries that typically do not exceed 75 words. DO: Address the content of the course and write descriptions using active verbs (e.g., explore, learn, develop, etc.). DO NOT: Repeat the title of the course, layout the syllabus, use pronouns such as "we" and "you," or rely on specialized jargon, vague phrases, or clichés.

Section 2. Review of Course

2.1. Will this be a unique or common course (place an "X" in the appropriate box)?

Unique Course

If the request is for a unique course, institutions must review the common course catalog in the system course database to determine if a comparable common course already exists. List the two closest course matches in the common course catalog and provide a brief narrative explaining why the proposed course differs from those listed. If a search of the common course catalog determines an existing common course exists, complete the Authority to Offer an Existing Course Form. Courses requested without an attempt to find comparable courses will not be reviewed.

Prefix & No.	Course Title	Credits
NURS 344	Patient-Centered Care Concepts III	5
NURS 330	Designer, Coordinator, and Manager of Care II	4

Provide explanation of differences between proposed course and existing system catalog courses below:

Neither course has a lab component, which is included in NSU's course, and they also include different focus areas. Along with some Med/Surg components, NURS 344 contains mental health, which is not included in the NSU course. NURS 330 focuses on family and does not define OB and Pediatrics as topics of the course, which is in the NSU course. Nursing curricula and course breakdown vary between all programs as they are tailored to each school's unique characteristics and goals, just as Northern's program is being tailored to our unique characteristics and goals.
